## Why Choose Viewit

### **Get Paid For Your Content**

Whenever your followers subscribe to YouTube Premium for \$14.99 to enjoy your content without ads, YouTube doesn't share the earnings with you. But here's the exciting part: By joining Viewit, we compensate you for every follower you bring to our platform to enjoy your ad-free content. It's time to make your content work for you!

### **Monetize Your Followers**

When you turn your Instagram, TikTok, YouTube, X, Twitter, Snapchat, Rumble, Threads, Facebook and Twitch followers into Viewit followers, we pay you.

### **Fund Your Businesses**

Every time you post on other social media platforms, just share your Viewit referral link! That's it! When your followers sign up, and become your follower on Viewit, you get instant payouts that can be significant.

### **Monetize Your Existing Content**

Keep your new Viewit followers engaged by regularly uploading new and existing content. You could even create how to videos on fitness, cooking or daily make up tutorials and set your price to lock the content. Begin to enjoy earnings as your followers pay to unlock and watch your how to videos. It's time to finally start monetizing your efforts and talents!

### **Get Paid To Be The First Adopter Of Viewit**

We just launched! Now you can be amongst the first to join Viewit ahead of other Top Influencers. This strategy worked for Addison Rae, who amassed over 88 million followers by being one of the first adoptors of TikTok.
